PMP® Renewal Program

Code: 2900
0 day

Course Overview

Build your skill set, enhance your career, and earn your Continuing Certification Requirement (CCR) PDUs on your own time, from the comfort of your own desk. We understand that leaving the office while in the midst of a project is often challenging, if not impossible. Our PMP® Renewal Program lets you choose the courses you want, whenever and wherever you want.

Maintaining your PMP credential requires 60 PDUs of Continuing Certification Requirements during a three year cycle. With one year unlimited access to our robust library of targeted virtual short courses, webinars, and recorded courses on all ten A Guide to the Project Management Body of Knowledge, (PMBOK® Guide) - Fifth Edition, Project Management Institute, Inc., 2013 knowledge areas, you can easily meet your requirements.

The PMP Renewal Program is a convenient way to improve your skills, network with other senior project managers, and earn PDUs on your schedule. All of the courses within the program are less than five hours long, so you can continue your professional development without throwing your project off schedule. You worked hard to earn your PMP. Make sure you earn the PDUs necessary to keep it current.

Certification

To maintain your PMP status, PMI® requires 60 PDUs during each three-year renewal period.

Who Needs To Attend

PMP-certified project managers, IT project managers, project coordinators, project analysts, project leaders, senior project managers, team leaders, product managers, program managers, project sponsors, and project team members who want to continue to develop their skills and renew their PMP certification.
